SUMMARY

Full Stack Developer with nearly 3 years of experience, specializing in PHP, MySQL, WordPress, and JavaScript frameworks like React and Next.js. Skilled in both front-end and back-end development, including custom WordPress themes, RESTful API integration, and dynamic dashboards. Strong in database design, clean code practices, and performance optimization.

SKILLS

Language & Frameworks: PHP, MySQL, JavaScript, React.js, Next.js, TypeScript, HTML5, CSS, SCSS/SASS, Tailwind, Bootstrap, jQuery, WordPress (ACF, CPT, Gutenberg, Elementor, WPBakery), Laravel, MongoDB.

Tools & Technologies: Git, GitHub, Visual Studio Code, Postman, Axios, Figma, Chrome DevTools, Lighthouse, Cloudflare, Slack, Jira.

Development Practices: Agile/Scrum, RESTful API Integration, Component-Based Architecture, Responsive Design, Accessibility (WCAG), Performance Optimization, Clean Code, Version Control, Reusable Components.

WORK EXPERIENCE

Full Stack Developer - Markytech

July 2022 – Feb 2025

- Developed full-stack web applications using React, PHP, WordPress, and Laravel, enhancing performance, security, and responsiveness, and boosting team efficiency by 35%.
- Integrated RESTful APIs and third-party services to support dynamic content loading and user interaction for platforms like JaTrade.
- Designed and implemented backend logic with Laravel, including authentication, database queries, and API endpoints to power interactive dashboards and CMS functionality.
- Optimized MySQL queries for real-time data syncing, improving performance and ensuring data consistency across applications.
- Led the development of a custom WordPress theme using ACF and CPT, enabling a flexible and scalable content structure for a digital agency.
- Built admin dashboards with visual charts and filters for clients like Qayam Hunza, providing actionable insights and improving operational decisions.
- Utilized Git and GitHub for version control and code collaboration, ensuring clean, documented commits and pull requests in a team environment.
- Collaborated with UI/UX designers to implement pixel-perfect designs and improve UI responsiveness and accessibility across devices.
- Analyzed project documentation to define front-end tasks, ensuring full alignment with design and functionality requirements.

Projects

• JaTrade

Technologies: Inertia.js, Next.js, React.js, JavaScript, CSS, Postman.

- Developed a modular component system that reduced frontend redundancy and sped up feature rollouts.
- Applied client side state management to improve search/filter efficiency for product listings.
- Coordinated API contract testing with backend, ensuring smooth data handling in production.

• DwaniqueAutoSales

Technologies: React.js, TypeScript, HTML, CSS, Bootstrap

- Implemented TypeScript for type safety, reducing runtime errors and improving code maintainability.
- Designed a lightweight UI architecture that improved page load speed for large vehicle catalogs.
- Conducted cross-browser compatibility testing to ensure consistent performance across platforms.

• Hostel Management System

Technologies: Laravel, Blade, HTML, CSS, JavaScript, Bootstrap, MVC

- Engineered relational database structures to handle student-room assignments with integrity checks.
- Created and styled a dynamic dashboard to display real-time data on rooms, guests, and bookings.
- Automated booking workflows, reducing manual admin work and error rates.
- Applied MVC principles with Blade templating, streamlining UI and backend communication.

Freelance Projects

Portfolio

- Executed freelance projects by creating customized WordPress websites with optimized layouts and interactive features, ensuring client-specific functionality and seamless user experience.

EDUCATION

MSc Software Engineering

University of Europe for Applied Sciences, Germany

2025 – Present

BS Computer Science

DHA Suffa University, Pakistan

2018 – 2022

LANGUAGES

English - Fluent

German - Basic
